RE: Permitting  
Little Mountain Mine  
ACT/057/002  
Weber County, Utah

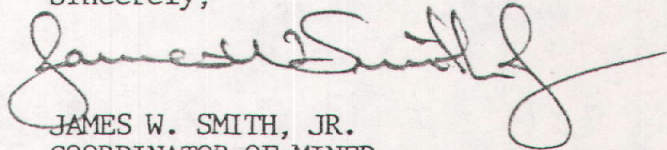

Dear Mr. Behrens:

As you may recall, on July 19, 1982, a meeting was held between you and Mr. Reynolds and members of the Division staff, including Deputy Director Ron Daniels. At that time, questions pertaining to the permitting of Great Salt Lake Minerals & Chemical Corporation's (GSLMCC) operation, as well as a response to the Division's April 5, 1982 review letter were discussed. It was the understanding of the Division staff members after the meeting that GSLMCC would submit an official written response to the April 5th letter and then the Division would proceed with the permitting process by discussing GSLMCC mining and reclamation plan with the Board of Oil, Gas and Mining at its August meeting to obtain concurrence for Division approval.

As of this time, no response has been received from GSLMCC. We would like, as I'm sure you would, to finalize the permitting process and issue approval as soon as possible. In order to discuss this matter with the Board at its September 23 hearing, we must receive GSLMCC's written response by September 10. If this is not possible, please let me know when we can expect a response so that the appropriate scheduling can be made.

Please contact me or Susan Linner of my staff to answer any questions you may have regarding this. Your attention and cooperation in this matter is greatly appreciated.

Sincerely,
